

# Pine Valley Central School District is Planning the Pathway to Success!

Pine Valley Central School District is committed to providing educational opportunities that will grow tomorrow's leaders by providing our students and community with a safe and rewarding learning environment. As our last capital project nears its completion, the Board of Education has embarked on a long-range planning process to identify current and future facility improvement needs and the means to achieve them with minimal tax impact on our community.

After an in-depth review of our educational program goals, asset preservation needs, and capital project funding opportunities, the Board is prepared to propose the next step forward for our district.

## Capital Improvement Project Initiative 2023

## Capital Improvement Project Initiative Goals

The next step in our long-range capital improvement initiative is based on the following focus areas of health and safety, asset preservation, and educational program spaces. The categories below list some general items the Board of Education has identified and is considering for the next proposed capital improvement project:

### Health, Safety, and Security Improvements

- Sanitary piping and water mitigation improvements
- Reconstruction of deteriorated walkways and parking areas
- Pedestrian and vehicle safety/circulation improvements
- ADA (Americans with Disabilities Act) accessibility upgrades
- HVAC and air-handling systems

### Educational Program Space Improvements

- Auditorium seating and equipment improvements
- Restroom upgrades and locker room privacy enhancements
- Kitchen improvements
- Sidewalk and driveway improvements for access to the new playground

### Building Infrastructure and Asset Preservation

- Replacement of systems and equipment at end of useful life
- Window and door replacements
- Mechanical, electrical, and plumbing system upgrades
- Fencing replacement
- Site drainage improvements
- Transportation, maintenance, and storage facility upgrades
