

This form must be signed and returned to the Main Office before any equipment can leave the district.

Pine Valley Central School District

Technology Equipment Acceptable-Use form

Dear Parent/Guardian:

Technology is a solid enhancement to the learning process. Together with this privilege comes responsibility. Students are expected to ensure all equipment being used and/or loaned to them is received and returned in good working order.

Tablets, laptops, cameras, and audio visual/peripherals have been purchased to provide students with unique resources. Students have been made aware of their responsibilities. To maintain system integrity, ensure internet safety and verify that users are in compliance with school policies (including the new iPad handbook policies & procedures), all equipment will be closely monitored and consequences for misuse will result in loss of privileges.

All equipment will be assigned using the library bar-coding system and the school issued student ID card. Equipment sign-out will not be allowed unless a student ID card is presented. If misuse, damage, or loss occurs, the student will be assessed the cost of the particular item for which the parent/guardian will be held accountable, and the student may lose privileges for the current school year. Only students who return this agreement form will be granted the right to sign-out technology equipment for use outside of the school premises.

(The most recent copy of the iPad handbook can be found at www.pval.org/ipads)
